Paso 1

Are there Spanish speakers in your community? When describing “your community” think about local families, neighborhoods, schools, places of worship, towns or larger cities. Are some Spanish-speaking countries especially well represented in your community?

Paso 2

Using the map on the back of this page, make a list of countries around the world represented among members of your community. In other words, only write down the country if you know somebody nearby our Alta community (or the community you are most native of) that is from there. Be sure to list the countries' names in Spanish.
