

### 5<sup>th</sup>/6<sup>th</sup> period

1. Have them free-read for 15 minutes then put their books back
2. Grab the box of headphones from the back counter (it's next to the blue Lost & Found bin)
3. Take them to the S-101 lab and lock the door behind you—tell students you'll come back before the bell
4. Students will go to [srtahawkins.weebly.com](http://srtahawkins.weebly.com) and follow the instructions on the Spanish 3 page
5. The lab aide (Williams) should be familiar with the Pinterest project and should know what's allowed and what's not
6. As for the homework portion of their project, they might need headphones (in box) to watch a video
7. They also need to print a pdf activities page which will be hyperlinked on the article page, please explain this to the lab aide, I think it's okay that all students print 1 pg. If not, have them copy down their answers into a notebook.
  - a. Because they are viewing fashion videos, I can see how this might look suspicious, but I have previewed all the media and can assure it is school appropriate. The following two "Moda" pages in particular might look sketchy, but the content is okay (you can tell them to choose another activity if you disagree)-
    - i. Koxis (Argentina) -a lot a beach wear
    - ii. Uniform (Uruguay) –strange video of shearing people like sheep (no nudity of violence—just weird)

### 8<sup>th</sup> period- ESL

1. I gave them a grammar packet last class to work on while I interviewed them about their progress.
2. They can work on this. There are extras on the brown table next to my desk. It's 2 pages, but it has 8 worksheet pages total copied on it. Some put theirs in the basket already.
3. If they finish early, they may NOT play on their phone. They can select a free reading book from the corner counter (near the front of the class). If some of my Spanish-speaking students would like to read a book in Spanish, they may do so. Just make sure all books are returned at the end.
4. If everyone finishes by 1:05, correct the packet. There is no key, but the answers are easy. Decide on a point total. Have them trade with a partner and use another color and turn into the basket after correcting.
5. Record any off-task behavior, as they are earning participation points for today.

Thanks again for being my sub. I'm sick today and it's good to know I have someone to rely on.
